

## Graduate Employment and Continuing Education Outcomes

Carroll College administers the First Destination survey to degree earners annually. The survey is launched 5 weeks prior to graduation and students have up to 6 months after graduation to complete and update their response. After the launch of the survey, students receive 5 email reminders to complete the survey. Below are the employers, continuing education institutions, and that were most frequently self-reported as well as the types of continuing education programs listed by 2024 graduates who completed the First Destination survey.

Placement Rates:
